gauravxd.dev

Bhiwani, Haryana, India | Open to Remote Worldwide | Immediate Joiner | 3+ Years Experience

PROFESSIONAL SUMMARY

AI Engineer with 3+ years designing and shipping production LLM systems — RAG pipelines, AI agents, and automation tools that replaced manual workflows for real clients. Built and deployed 10+ AI chatbots and 5+ Telegram bots, cutting repetitive support and lead-handling work for businesses across real estate, e-commerce, and agency verticals. Currently building MemoryOS, a universal AI memory layer for ChatGPT and Claude (Next.js, NestJS, pgvector, Gemini API). Strong in LangChain, Generative AI, prompt engineering, and evaluating RAG quality end-to-end — not just building demos, but measuring what works.

TECHNICAL SKILLS

AI & LLM: LLMs · RAG Pipelines · LangChain · LangGraph · AI Agents · Prompt Engineering · Generative AI · Fine-Tuning (LoRA) Model Evaluation

Vector & Data: ChromaDB · pgvector · Vector Databases · Embeddings · Ollama · smolagents

APIs: OpenAI API · Anthropic Claude API · Gemini API · Telegram Bot API · REST APIs

Dev: Python · FastAPI · Node.js · NestJS · Next.js 15 · React · TypeScript · Kotlin

Infra & Cloud: PostgreSQL · Redis · Supabase · Firebase · Docker · Railway.app (Cloud Deploy) · CI/CD (GitHub Actions) · n8n · Git Linux VPS

PROFESSIONAL EXPERIENCE

Generative AI Engineer @ MemoryOS (Self-Founded)

Jan 2026 – Present | Remote

- Built a universal AI memory layer for ChatGPT & Claude that persists context across sessions, by architecting a Next.js 15 + NestJS system with Gemini API memory extraction and a Plasmo Chrome extension.
- Enabled sub-200ms semantic memory retrieval by implementing HNSW vector indexing with gemini-embedding-2 (768 dims) on PostgreSQL + pgvector, backed by Redis + BullMQ.

Python Development Intern @ Cognifyz IT Solutions Pvt. Ltd.

Jul 2026 – Aug 2026 | Remote

- Delivered 8 Python modules on schedule — a BeautifulSoup web scraper and Matplotlib/Plotly visualization tool — with clean, documented, testable code reviewed against company standards.

Generative AI Engineer @ Freelance (Independent)

Jan 2022 – Present | Remote

- Eliminated repetitive manual support work for 3+ clients by building a RAG document Q&A system (LangChain + ChromaDB) that let non-technical teams query knowledge bases in plain English.
- Generated 88+ qualified leads/campaign across 6 verticals by designing an AI cold email pipeline (Apollo.io + Instantly.ai + OpenAI) that auto-wrote personalized icebreakers at scale.
- Automated support for 10+ client businesses by deploying LLM chatbots (OpenAI, Anthropic Claude, Ollama) for lead qualification and FAQ handling — replacing manual first-response teams.
- Shipped 5+ production Telegram bots for international clients — trading alerts, lead capture — integrating payment gateways and real-time APIs into event-driven Python backends.

KEY PROJECTS

MemoryOS — Universal AI Memory Layer

Next.js 15 · NestJS · pgvector · Redis · BullMQ · Gemini API · Plasmo Extension

Universal memory layer for ChatGPT, Claude & Gemini — captures conversations, extracts AI memories, injects context into new sessions automatically.

Nyxleads — AI Lead Scraping CLI

Python · Typer · FastAPI · Supabase · Nuitka

Commercial CLI with license-key auth, hardware fingerprint binding, 3 subscription tiers, and anti-piracy thin-client architecture.

Local Offline AI Coding Agent

Qwen2.5-Coder 14B · Ollama · smolagents · ChromaDB · Gradio · FastAPI

Self-hosted AI coding assistant on Ubuntu VPS with vector memory and streaming chat — zero API costs.

RAG Document Chatbot

LangChain · ChromaDB · OpenAI API · FastAPI

Production RAG system enabling businesses to query internal documents conversationally.

anti-forward-bot — Telegram Bot

Python · aiogram 3 · PostgreSQL · Redis · Docker

Multi-tenant bot that auto-detects and reposts forwarded content clean, no 'Forwarded from' tag.

EDUCATION & CONTINUOUS LEARNING

Self-Directed AI Engineering Curriculum — Udemy

2022 – Present

AI Engineer 2026 Bootcamp · Prompt Engineering Masterclass · AI Agents Bootcamp · Angela Yu Python & WebDev

Languages: Hindi (Native) · English (Professional) · Punjabi (Conversational)
